PROFESSIONAL EXPERIENCE

Altimetrik Pvt Ltd

Chennai, India, August 2024 - Present

Senior Software Engineer - (Product & Platform Engineering)

- Working on a Citi Bank project and developing dynamic UI configurations for transaction interfaces across global markets, delivering scalable and customizable solutions to meet diverse international transaction requirements. Enabled seamless, API-driven retrieval of design details to support these solutions.

Radial Omnichannel Technologies India Pvt Ltd

Chennai, India, August 2021 – August 2024

Software Analyst - (Fulfillment & Supply Chain Technology)

- Engineered a comprehensive solution for Manhattan Transportation Management Service using BluJay, developing a WES to integrate with warehouse robots like Locus and Geek in the ROM system and optimizing the order pick, pack, and ship automation strategy with Elastic Cloud to enhance pick-and-pack operations.
- Clients Launched:** GetSunday, Neom Organics, BATA (in Spain, Italy, Czechia, Germany, and Portugal), YoungLA, Coyuchi, Hugo Boss, Harley-Davidson, Little Sleepies, PUMA, Hey Dude, Stüssy, and Kate Spade across multiple regions in USA and Europe.

Inswit Software Pvt Ltd

Chennai, India, June 2020 – August 2021

Software Developer

- Migrated our monolithic codebase into three micro services for horizontal scalability and converted one of our ChatBot Jersey REST APIs to Spring Boot REST API, adding Spring Boot Security.
- Designed the Audit component in Angular, which stores trail details and provided a download option for our clients through the REST API using Java, Apache Kafka and Spring Boot and also designed a few web forms for our clients in React.

IDB Technologies Pvt Ltd

Chennai, India, January 2019 – February 2020

Junior Java developer

- Devised an algorithm to keep track of our clients' employees' productivity by using ERP technology and generated a sheet to report their clients activities while maintaining the CONBUILD and BASSIS PAY project from scratch, using technologies such as JAVA, HTML, CSS, JavaScript, jQuery, Hibernate, Bootstrap, MySQL and designed invoices for our clients using JSP.
- Implemented CRM technology to provide a chat service in issue-tracking applications, improving interaction using PHP.
